

CER *Fact Sheet*

NAME	Project 9483: Jamanwada wind power project in Gujarat, India
LOCATION	Gujarat, India
PROJECT TYPE	Wind farm project
METHODOLOGY	ACM0002 ver. 13–Consolidated baseline methodology for grid-connected electricity generation from renewable sources
REGISTRATION DATE	2 January 2013
UNIT TYPE	CERs
DATE OF ISSUANCE	August 2016
VOLUME	Volume available upon request
UNFCCC NUMBER	9483
CDM REGISTRY LINK	https://cdm.unfccc.int/Projects/DB/BVQI1356951237.28/view
SUSTAINABLE DEVELOPMENT	The project activity leads to direct and indirect employment to the local population, thereby contributing to poverty alleviation of the local community. The wind farm attracts investment in the region, which would not have taken place in the absence of the project. It contributes to the infrastructure development of the region by bridging the gap between electricity supply and demand.
